STAT

Dear 

STAT

During the period 11-13 May 1960, your organization cooperated with a number of other Los Angeles firms in hosting and briefing the Joint Chiefs of Staff Working Party on Ground Intelligence Photography. As permanent chairman of that Working Party it is my official and personal pleasure to express our very real appreciation for your part in our most successful meetings.

I regret that I was unable to participate with the group, but I have since received several most enthusiastic reports of the meetings and almost without exception their comments have included expressions of interest in your demonstrated abilities in lens design and manufacture. This interest, coupled with the normal R & D functions of most of the Group membership should result in individual members contacting you in search of assistance in accomplishment of their various and diverse tasks.

Again may I express our sincere appreciation for your generous participation and would you relay our thanks to  and the others of your staff who contributed to a very profitable and stimulating meeting.

STAT

Sincerely yours,

ARTHUR C. LUNDAHL
